**Two Pediatric Assessments:
 Pediatric Evaluation of Disability Inventory (PEDI) and the
 Gross Motor Function Measure (GMFM-66 & GMFM-88)**

Debra Clayton-Krasinski, PT, PhD

Sunday April 27, 2008

Course Fees: \$175 (early registration postmarked on or before April 7, 2008)
 \$195 (late registration postmarked on or after April 8, 2008)

CEUs: .65 (6.5 contact hours)

Course Description:

This workshop provides therapists with an understanding of the steps to perform two of the most commonly used pediatric assessments—the PEDI and the GMFM. Therapists will learn how to administer, score, and interpret findings of each assessment. Participants will learn when to select each assessment for use with different clinical populations. Case examples will provide the opportunity for participants to practice using real test findings to establish treatment goals. This is a lively hands-on course with opportunity to practice administering, scoring, and interpreting each assessment.

Course Objectives:

Upon completion of the course, participants will be able to:

1. Describe the purpose of the PEDI and GMFM, and attribute measured, age ranges and type of scores for each assessment
2. Select the appropriate test for a given clinical question, diagnosis, or setting
3. Interpret test findings and identify a child's activity limitations and participation restrictions
4. Use each test to identify appropriate treatment goals

Course Schedule:

8:00 – 8:30	Registration and Continental Breakfast
8:30 – 8:45	Course Overview
8:45 – 10:15	The Ins and Outs of Testing
10:15 – 10:30	Break
10:30 – 12:00	Gross Motor Function Measure (GMFM-66 & GMFM-88)
12:00 – 1:15	Lunch On Own
1:15 – 2:30	Pediatric Evaluation of Disability Inventory (PEDI)
2:30 – 2:45	Break
2:45 – 3:15	Interpretation of PEDI scores
3:15 – 4:15	Case Examples
4:15 – 4:35	Wrap up

Certificate of Completion provided upon completion of this course.

About the Presenter:

Debra Clayton-Krasinski PT, PhD is an Assistant Professor in the Program of Physical Therapy at Columbia University's College of Physicians and Surgeons. Dr. Krasinski has 30 years of clinical experience in the area of pediatric neuromuscular rehabilitation. She has lectured extensively and co-authored several chapters and articles describing the merits and applicability of standardized pediatric motor tests. Dr. Krasinski is currently involved in collaborative research with the Division of Pediatric Orthopedic Surgery at Morgan Stanley Children's Hospital of New York to assess functional outcomes and overall quality of life in children with neuromuscular conditions who have undergone orthopedic surgery.

Refund/Cancellation Policy:

Tuition less a 20% administrative charge is refundable if written notice is received one week prior to the course start date. No refunds will be made after this date. We reserve the right to cancel the course for due cause. Cancellation by Columbia University will result in a full refund of tuition.

Columbia University is an AOTA Approved Provider of Continuing Education Courses. This course is approved for 1.5 CEUs (15 contact hours).

The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.
